

## Out of work

Being out of work is not much fun  
Finding something to do after the job trawl is done  
Being employed is what I love  
Please find me a job oh god above

The days seem to be so very long  
As far as I am aware, I did nothing wrong  
Its just that The Company were making a loss  
Who always goes first – usually the boss  
So it was I was called to a meeting  
I knew something was up by my bosses greeting

Times are hard and we have to cut staff  
I hope your joking or having a laugh  
We will give you three month's pay  
That will help you on your way

What about bills they have to be paid  
You will have to find a new job I'm afraid  
And so it is I am sitting here now  
From gainful employment I have taken a bow

All I have is this freezing house  
With maybe a spider and sometimes a mouse  
I cant afford the massive bills  
I was willing to retrain and work on the tills

Its like a cloud hanging overhead  
I have to force myself out of bed  
Please make a miracle my dear lord  
Before I become insanely bored!
