

## Door Handle

What is there to write about a door handle one would say  
Well, for one, I like to be used in a sensitive way  
We come in plastic, metal and sometimes wood  
We live half way up the door from where your stood

Without us you would be left outside  
Which most of us just could not abide  
Some of us are made to turn  
Something young toddlers easily learn

Whilst some you have to lift to lock  
The reason being – a burglar to block  
Some you have to literally pull  
Very easy for the simplest fool

So even though we are so plain  
Without us you would be out in the rain  
We are not there for hanging a dog lead  
But there for a much simpler need  
To let you go in and out  
An essential item – don't ever doubt!

Linda Lane
