

Remembering Dear Jean

We have come today to remember dear Jean
It seems like only yesterday she was living her dream
Of showing her Affies at the summer shows
As her doggie family steadily grows.

It was at Billing by the stream that we first met
It was here she mentioned she wanted a pet
She fell in love with our little affie girl
Her monkey like face and tail with the twirl

After looking around she settled for Buzz
His turned up nose and face full of fuzz
Devoted to Jean and always by her side
Living with Julie since Jean has died

I have such fond memories of our camping days
She liked her tippie and my extrovert ways
How she put up with me singing in the car
I bet she hoped the show was not too far!

Such a loving grandma to young little Rosie
Who she loved so much and made her feel cosie
Showing as a family was her one big wish
Holidays away and chips and some fish

School crossing patrol lady was her favourite role
All the children's hearts she stole
Jean liked being busy and using her brain
She drove everywhere but never caught the train

The dogs gave Jean so much fun
She was always so happy if one of them won
I have such fond memories of you my dear friend
It was far too early for your life to end

Now at peace with the Lord up above
Hopefully meeting up with the man that you loved.

RIP dearest friend
Love Linda May 2014
